Final Results of Expedited Sunset Review: Ferrovanadium and Nitrided Vanadium from Russia

AGENCY: Import Administration, International Trade Administration, Department of Commerce

SUMMARY: On September 1, 2011, the Department of Commerce (the Department) initiated the third sunset review of the antidumping duty order on ferrovanadium and nitrided vanadium from the Russian Federation (Russia), pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). The Department has conducted an expedited (120-day) sunset review for this order pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2). As a result of this sunset review, the Department finds that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping.

FOR FURTHER INFORMATION: David Goldberger, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4136.

SUPPLEMENTARY INFORMATION

Background

On September 1, 2011, the Department published the notice of initiation of the third sunset review of the antidumping duty order on ferrovanadium and nitrided vanadium from

Russia, pursuant to section 751(c) of the Act. See Initiation of Five-Year ("Sunset") Review, 76 FR 54430 (September 1, 2011).

The Department received notices of intent to participate from the following domestic parties within the deadline specified in 19 CFR 351.218(d)(1)(i): AMG Vanadium Inc., and Gulf Chemical and Metallurgical Corporation and its wholly owned subsidiary, Bear Metallurgical Corporation (collectively "the domestic interested parties"). The domestic interested parties claimed interested party status under section 771(9)(C) of the Act, as manufacturers or wholesalers of a domestic like product in the United States.

The Department received complete substantive responses to the notice of initiation from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no response from any respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted an expedited (120-day) sunset review of the antidumping duty order.

Scope of the Order

The products covered by the order are ferrovanadium and nitrided vanadium, regardless of grade, chemistry, form or size, unless expressly excluded from the scope of the order.

Ferrovanadium includes alloys containing ferrovanadium as the predominant element by weight (i.e., more weight than any other element, except iron in some instances) and at least 4 percent by weight of iron. Nitrided vanadium includes compounds containing vanadium as the predominant element, by weight, and at least 5 percent, by weight, of nitrogen.

Excluded from the scope of the order are vanadium additives other than ferrovanadium and nitrided vanadium, such as vanadium-aluminum master alloys, vanadium chemicals,

vanadium waste and scrap, vanadium-bearing raw materials, such as slag, boiler residues, fly ash, and vanadium oxides.

The products subject to the order are currently classifiable under subheadings 2850.00.20, 7202.92.00, 7202.99.5040, 8112.40.3000, and 8112.40.6000 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope is dispositive.

Analysis of Comments Received

All issues raised in this review are addressed in the "Issues and Decision Memorandum for the Expedited Sunset Review of the Antidumping Duty Order on Ferrovanadium and Nitrided Vanadium from Russia" from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant Secretary for Import Administration (Decision Memorandum), which is hereby adopted by, and issued concurrently with, this notice. The issues discussed in the Decision Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the order were revoked. The Decision Memorandum is a public document and is on file electronically via Import Administration's Antidumping and Countervailing Duty Centralized Electronic Services System ("IA ACCESS"). Access to IA ACCESS is available in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Decision Memorandum can be accessed on the internet at http://www.trade.gov/ia/. The signed Decision Memorandum and the electronic versions of the Decision Memorandum are identical in content.

Final Results of Review

We determine that revocation of the antidumping duty order on ferrovanadium and nitrided vanadium from Russia would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margins:

Exporter/Manufacturer	Margin Percentage
Galt Alloys, Inc	3.75
Gesellschaft für Elektrometallurgie m.b.H. (and	11.72
its related companies Shieldalloy Metallurgical	
Corporation and Metallurg, Inc.)	
Odermet	10.10
All Other Russian Manufacturers and Exporters ¹	108.00

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

_

¹ Prior to Russia's graduation to market-economy status, this rate was referred to as the Russia-wide rate.

We are issuing and publishing the results and notice in accordance with sections 751(c),
52(c), and 777(i)(1) of the Act.
